

**Kaiser Foundation Health Plan  
of Washington**

**Clinical Review Criteria  
Shoulder Arthroplasty**

**NOTICE:** Kaiser Foundation Health Plan of Washington and Kaiser Foundation Health Plan of Washington Options, Inc. (Kaiser Permanente) provide these Clinical Review Criteria for internal use by their members and health care providers. The Clinical Review Criteria only apply to Kaiser Foundation Health Plan of Washington and Kaiser Foundation Health Plan of Washington Options, Inc. Use of the Clinical Review Criteria or any Kaiser Permanente entity name, logo, trade name, trademark, or service mark for marketing or publicity purposes, including on any website, or in any press release or promotional material, is strictly prohibited.

Kaiser Permanente Clinical Review Criteria are developed to assist in administering plan benefits. These criteria neither offer medical advice nor guarantee coverage. Kaiser Permanente reserves the exclusive right to modify, revoke, suspend or change any or all of these Clinical Review Criteria, at Kaiser Permanente's sole discretion, at any time, with or without notice. **Member contracts differ in health plan benefits. Always consult the patient's Evidence of Coverage or call Kaiser Permanente Member Services at 1-888-901-4636 (TTY 711), Monday through Friday, 8 a.m. to 5 p.m. to determine coverage for a specific medical service.**

**Criteria**

**For Medicare Members**

Source	Policy
CMS Coverage Manuals	None
National Coverage Determinations (NCD)	None
Local Coverage Determinations (LCD)	None
Local Coverage Article (LCA)	None
Kaiser Permanente Medical Policy	Due to the absence of an active NCD, LCD, or other coverage guidance, Kaiser Permanente has chosen to use their own Clinical Review Criteria, " <b>Shoulder Arthroplasty</b> " and " <b>Shoulder Hemiarthroplasty</b> " for medical necessity determinations. Refer to the Non-Medicare criteria below.

**For Non-Medicare Members**

--	---

**If requesting this service (or these services), please send the following documentation to support medical necessity:**

- Last 6 months of clinical notes from requesting provider &/or specialist

The following information was used in the development of this document and is provided as background only. It is provided for historical purposes and does not necessarily reflect the most current published literature. When significant new articles are published that impact treatment option, Kaiser Permanente will review as needed. This information is not to be used as coverage criteria. Please only refer to the criteria listed above for coverage determinations.

## Background

A shoulder arthroplasty involves replacement of the ball and socket of the shoulder joint and may be performed as either a traditional anatomic total shoulder arthroplasty (replacement of the head of the humerus "ball" and the cup of the scapula "socket" with mechanical components) or as a reverse total shoulder arthroplasty, wherein the mechanical "socket" is placed into the head of the humerus and the "ball" is attached to the glenoid cup in the shoulder blade. This guideline should be used for total shoulder arthroplasty, reverse total shoulder arthroplasty, and revision shoulder arthroplasty.(1)

Surgery may safely be performed in various settings. Some of the common settings used are an inpatient hospital or medical center, an off-campus outpatient hospital or medical center, or an on campus outpatient hospital. Costs for surgical procedures may vary among these different settings. To encourage the use of the most safe and appropriate, cost-effective sites of service for certain medically necessary outpatient surgical procedures, prior authorization is required for the site of service for the surgical procedures listed below.
