

SPECIALTY HOME INFUSION PHARMACY SERVICES

Kaiser Permanente Washington Home Infusion Pharmacy is a dedicated team available to members receiving home infusion. This team partners with providers and nurses to make sure members are receiving the right medicine and dose, while monitoring their treatment.

Under specialty home infusion program, Kaiser Permanente Home Infusion Pharmacy mails medicine and infusion supplies to the member's home and coordinates the administration of the member's home infusion by a preferred nursing partner. You can access our [Home Infusion Pharmacy formulary](#) on our provider site. New drugs are regularly being assessed for addition to the formulary.

Kaiser Permanente Washington Home Infusion Pharmacy can service all non-Medicare Kaiser Permanente insured members, 7 years and older. The pharmacy cannot service Molina members.

Is specialty home infusion therapy safe?

Specialty home infusion has been proven to be a safe and effective alternative to inpatient care for many disease states and therapies. A full patient and home assessment are performed before initiating infusion therapy at home to ensure that the patient is a suitable candidate for home care. A registered infusion nurse will supervise and monitor the patient for the course of the infusion administration.

Is my patient a good candidate for specialty home infusion?

Kaiser Permanente Home Infusion Pharmacy, along with its preferred nursing partner, will make a holistic assessment as to whether a patient is a good candidate for home infusion. A patient may be a good candidate for home infusion if:

1. The member's home environment has been assessed as:
 - Being accessible to 911 services and urgent care,
 - Having adequate refrigeration, running water, electricity, telephone access,
 - Meeting general cleanliness standards.
2. The member is medically stable and able to participate in their care,
AND
3. The member has reliable venous access.

SUBMIT A REFERRAL

Refer a patient to Kaiser Permanente Home Infusion Pharmacy by following the instructions in the [home infusion referral job aid](#), or by faxing a prescription referral to 844-785-3104. The prescription referral for each specialty therapy can be found on the [Kaiser Permanente Provider Forms](#) page.
