CME: Diabetic Management Series
Live Online Wednesday, March 13th and April 24th, 2019, 1-2 pm

About the course
This FREE live online two-part CME will focus on Diabetes Management. In this course, participants will receive an overview of the evidence behind the utilization of NPH, as well as indications for use of other basal insulins, and review pragmatic approaches to clinical management of diabetes.

Objectives
At the end of this educational activity, attendees will be able to:
- Describe how to effectively and safely use NPH in the management of type 2 diabetes
- Outline the evidence behind the utilization of NPH as well as indications for use of other basal insulins
- Discuss insulin cost impacts to patients
- Outline the newer non-insulin therapies
- Review evidence-based and cost-effective strategies for use of these non-insulin therapies
- Review the data on cardiovascular benefit of various diabetes therapies

Target Audience
Primary care physicians, residents, ARNPs, PA-Cs, and other health care professionals

Registration
Register each individual attendee at https://goo.gl/kXL9DZ
A unique course link is emailed after registration. Space is limited to first 100 participants.
